

Engravers G847-SN

On Request
ultra mICRO tip dia $\geq 0.020\text{mm}$
Customised tip radius

Precisely controlled tip angles and tip diameters for high precision machining requirements.

Sharp cutting edges to ensure burr free engraving.

High performance ultra fine carbide substrates tailored for mICRO mACHINING applications.

Next Gen coatings suitable for the application material.

Präzise kontrollierte Spitzenwinkel und -durchmesser für die Anforderungen an die Hochpräzisionsbearbeitung.

Scharfe Schneidkanten für gratfreies Gravieren.

Hochleistungsfähige ultrafeine Hartmetallsubstrate maßgeschneidert für Mikrobearbeitungsanwendungen.

Moderne NexGen-Beschichtungen abgestimmt auf das Anwendungsmaterial.
